- 20-Year Warranty
- Heavy Duty double-coil low profile springs Standard on Solid Covers
- Stainless Steel low profile "D-Ring" Springs available on all Mesh Covers
- **Exceeds ASTM Standards**
- Custom non-corrosive hardware and brass anchors

# SUPREME-MESH™

The benefits of a solid cover, with the ease and handling of a mesh.

The new Supreme-Mesh® Safety Cover Material.

Manufactured with a new Supreme-tight, Supreme-light woven material, Supreme-Mesh® Safety Covers are designed to allow water through for drainage and safety but keep sunlight and debris out for ease of maintenance and peace of mind.

## Supreme-Strength

Our custom dual spring is standard on all Kafko Safety Covers to ensure a tighter fit.

## Supreme-Mesh® Material

A difference you can See & Feel! Offering the advantages of a heavy solid cover but in a lightweight mesh material for ease of handling.

## Supreme Shade

Unlike standard mesh material our New Supreme-Mesh® Material is designed to resist the sun's rays, inhibiting the growth of algae.

## Supreme Protection

Properly installed, the Supreme-Mesh® Material Safety Cover prevents accidental intrusion by children, pets and unwanted objects.

## Supreme Ease

By inhibiting the growth of algae, you'll do less cleaning and more swimming.

## Supreme Quality

Exceeds ASTM Standards. Tested for strength and durability to help protect you and your pool.

98%  
SHADE

U.S. Patent 6,886,187-98

## Built to last.

Excellence shows in the details. Like box tack reinforcement on all perimeter straps. Protective pads positioned at step nosings to prevent abrasion. And added protection on every component including the thread to resist ultra-violet rays and pool chemicals. Plus, it comes with a 20-year warranty.

## Custom heavy duty hardware for a tighter fit.

Heavy duty stainless steel double-coil springs, with D-Rings for ease of installation and adjustment. They have a lower profile — so covers lay flat and fit tight — whatever the shape of the pool. Standard on all Kafko Covers.

## Solid Safety Cover with EASE-A-DRAIN™

1/4" drain holes are located every 6" in reinforced vinyl, down the center of the cover. Beneath is a 12" wide mesh drain filter panel designed for easy cleaning. Standard on Solid Covers.

## Won't rub your pool the wrong way.

Coping anti-rub strips protect your cover without making marks or scars — keep your pool and cover new-looking for years.

## A cover is only as strong as its seams.

Kafko Safety Cover seams are interlocked and double overlapped. This seam is the heart of the Kafko difference.

## Our double decker edge.

A potential trouble spot for pool covers is the perimeter — where they can fray and unravel. The Kafko cover is first hemmed, then sandwiched between double layers of webbing. Edges can't unravel, you get years of trouble-free performance.

## Solid Cover with optional pump

Use of an optional weighted cover pump to immediately pump off all standing water, such as rain or melting snow will maintain all applicable safety standards.

## Introducing the Reduced Deck Mount™ System

NEW Patent Pending Design. Easy installation around raised walls, water features, spas and other deck accessories. Designed to maintain a tight cover fit and perfect for narrow pool decks. All Stainless Steel hardware with brass anchors.

# THE KAFKO

# DIFFERENCE

## No More:

- Standing Water
- Mosquitoes/Insects
- Leaves, Branches & Odors
- Hard to handle Waterbags/Tarps

## SAFETY IS EVERYONE'S RESPONSIBILITY.

As much as we try to build in every possible safety measure, it is the consumer purchaser's responsibility to follow all safety instructions provided with the Kafko Safety Cover, and to educate all users of the product as to its safe and proper use. Covers depicted are representative of the actual material; however, variations in color and shading may occur.
